ADVANCED TECHNOLOGY PROTECTION

TECHNOLOGICAL PERILS

Today's modern vehicle technology is very advanced and innovative, with some systems being able to see other vehicles, objects or children in the way; anticipate collisions; and automatically apply the brakes or take corrective steering actions, if needed.

These high-tech systems rely on a number of sensors, cameras, lasers and radar to gather data and monitor what's going on around the vehicle, as well as the road itself. This data is processed by computers, which then prompt action either from the vehicle or the driver.

As savvy as the technology is, though, it's not immune from failing, just like all electronics. That's why you often see extended protection plans for phones and computers. If repairing this kind of special technology can be rather costly for a tablet or laptop, imagine how much it would cost on a vehicle!

Without some sort of protection, it could cost you as much—if not more—as an engine or other major repair. How does that fit into your normal monthly budget? Chances are, it doesn't.

Fortunately, RTDA has you covered. Our Advanced Technology Protection can cover the cost of parts and labor for repair and replacement when a system has a failure. Protect yourself and your vehicle by planning for this failure due to a covered breakdown ahead of time and building it into your monthly car payment.

COVERAGE INCLUDES THE FOLLOWING OEM (ORIGINAL EQUIPMENT MANUFACTURER) INSTALLED COMPONENTS:

DVD PLAYERS

BLUETOOTH COMPONENTS

AUDIO SYSTEM, INCLUDING RADIO/CD PLAYERS AND AMPLIFIERS

LANE DEPARTURE WARNING SYSTEM

VIDEO AND GAMING SYSTEM

BLIND SPOT DETECTION SYSTEM

NAVIGATION SYSTEM

WIFI DATA CONNECTIONS

FORWARD, BACKUP, AND 360-DEGREE CAMERA SYSTEM

USB PORTS

ACCESSORY POWER POINT CONNECTIONS

PARKING ASSIST SYSTEM

HOMELINK SYSTEM

TOUCH/DISPLAY SCREENS

In addition to mechanical breakdown protection, the plan provides 24-hour roadside assistance, covering: towing, battery service, flat-tire change, lockout service, as well as gas delivery. It also includes substitute transportation reimbursement. Additionally, trip interruption protection is provided for when you are more than 100 miles from home and your vehicle is inoperable due to a covered breakdown.

Advanced Technology Protection: keeping your high-tech components running, so you can focus on the road ahead.
